THE SUMMER SEASON.

The season of the year's at hand
When the sun doth go so pert,
With a long, long day, and sand
Clad in her brother's shirt.

With dainty straw hat on her head,
And redressing her hair,
With a sprig of sun will gayly tread
To Summer's breezy pace.

And each young man will not be weary,
But he will wonder, walking by her,
How much her pa is worth.

POLITENESS costs nothing, but the lack of it costs a great deal. Life is brief, and we should pass this way but once. We mustn't be hasty all the time, but we can duck when we come to a low bridge, or we can remain silent when the average damphool opens his question box.

A Word to Republicans.

The hope of the party lies in the expansion of a free trade policy. Republicans who reads or others whose helps us support a Democratic paper to the exclusion of one of his own party newspapers is untrue to the Republican cause.

Unanimously endorsed by the National Republican League.

J. S. CLARKSON, President.
A. B. HUMPHREY, Secretary.

The home is the pillar of our National life.

It represents the thrift and the energy of our people; it is the product of their wages and savings.

AMERICAN HOMES.—The home is the schoolhouse of our youth and the comfort of our age. To have a little house that one can call one's own makes a man happier, manlier, more independent.

No country can be accounted prosperous unless the majority of whose people do not own their own homes. Here, then, we have a good test of the relative benefits of Protection and Free-trade. Which system makes easier for a working-man to have a home of his own?

Among the iron workers of Free-trade England, and they are perhaps the most prosperous of all that country's workmen, I man out of every 25 occupies his own home.

In Philadelphia, the largest city of the greatest iron producing state in the Union, there is one home to every five inhabitants.

The latest British Parliamentary report on the "Housing of Working Classes" says: "Even in the country districts (where) surely one would expect to find more homes) human beings are to be found hoarded together in a condition considerably worse than that in which the beasts that perish" are usually kept by their owners."

The United States Census of 1880 reports that the number of dwellings in the United States in that year was 8,665,612. The population was a little over 50,000,000; so that there was about one dwelling to every six inhabitants. One out of every six inhabitants occupied his own home.

It is to Protection that we owe the greater number of American homes. For the Tariff maintains the American rate of wages; from our higher wages

come the greater savings of our people, and from the savings of the family comes the home.

So we see that without Protection many of our homes would disappear, and with them also would disappear the freer, broader, manlier spirit of our people.

Protection is the safeguard of the American home.

HENRY CLAY Protective Tariff Clubs are being formed all through the state of Kentucky. It is about time that the natal state of one of America's greatest Protectionists should be freed from the domination of Cobdenite leaders and brought back into the ranks of states loyal to the true "American system."

The tax which is placed on coffee by the British Free-trade Tariff is 4 cents per pound. There is not a family in Great Britain, even though it be the poorest and humblest workingman's, that does not contribute toward the payment of this tax. The burden of these Free-trade Tariffs always falls heaviest on those least able to bear it.

REFERRING to the inditing of his Tariff message Mr. CLEVELAND is quoted as saying: "When I picked up the pen I had but one man in my mind from the time I wrote the first word until I signed my name, and that was the American farmer, but he did not understand me." Mr. CLEVELAND is greatly mistaken. The American farmer understood him only too well. That's the rub.

IN Ohio fifty-six National Banks have made returns to the Auditor showing a list of their stockholders. These banks represent over four millions of stock, and ladies own one-fourth of it.

THE strangest and most unique marriage ever performed in Baltimore took place between the bodies of George Mount Cemetery over the graves of the bride. The groom was Colonel Heinrich Von Stapp, ex Minister of Denmark to the United States, a Knight of the Order of Dannenborg, and the bride was Miss Mildred daughter of the late General Hammond of Baltimore. Six carriages were occupied by a wedding party, but the vehicles were supposed to be a funeral cortège as they slowly moved through the cemetery. When the Hammon lot was reached the graves were strewed with flowers and the wedding was quickly performed, the bride standing upon the grave of her mother, and the groom upon the grave of the bride's father. The bride is of one of Maryland's old families, being a remote descendant of George Washington. She is 49 years old.

Death of Emmons Blaine. CHICAGO, June 20.—The South Carolina delegation arrived Sunday night, and they are a remarkable exception to the Clevelanders. The delegates swept like a wave over the delegations today. The delegation is violently antagonistic to Cleveland, and go beyond the New Yorkers in their outspoken opposition to his nomination. Tammany sticks to Hill. CHICAGO, June 20.—Lively interest was aroused when the New York delegates went into session Sunday night behind closed doors at Tammany headquarters. Democrats Will Probably Indorse It. KANSAS CITY, Mo., June 20.—Interviews with independent voters at various points in the state show that the Alliance ticket put up in the field at Wichita generally meets with their favor, and will likely receive their support on election day. It is believed the democrats at their coming convention will endorse the Alliance ticket.

Lightning Strikes a General Store in Kentucky.

Two Kegs of Powder Explode, Wrecking Things and Injuring People.

A Major Loss Made Through the Thought Will Die—A Most Disastrous and Appalling Accident.

SOMERSET, Ky., June 20.—During a severe lightning and thunder storm early this morning a general store of W. H. Ryan at Parrysville, Wayne county, Ky., was struck by lightning. Two kegs of powder exploded, throwing a heavy iron safe through the roof and sounding all of the occupants of the room, some fifty in number.

Ryan is a gentleman of considerable prominence, and represented Wayne county in the Kentucky legislature.

The entire building of Parrysville was entirely destroyed this morning, and a search a nearby camp left intact from the death-dealing element.

Several physicians were at once called in to alleviate the sufferings of the unfortunate victims. Not one occupant of Ryan's store escaped severe injury.

Fighting in Africa.

LODGE, June 20.—Advices have been received here to the effect that a band of five Dervishes had raided the Italian station near Mervak. A force of Italians, with the assistance of some friendly tribes, repelled the attack, killing many of the Dervishes, including the leaders. The Dervishes were bent on looting the place. The dispatches also contain the information that Prince Croy, commanding the Congo state, had recently been engaged in two battles with Lunda slave-raiders, in which the latter were defeated with heavy loss. Three hundred slaves, whom they had in their session, were liberated.

South Carolina Kicking Hard. CHICAGO, June 20.—The South Carolina delegation arrived Sunday night, and they are a remarkable exception to the Clevelanders. The delegates swept like a wave over the delegations today. The delegation is violently antagonistic to Cleveland, and go beyond the New Yorkers in their outspoken opposition to his nomination. A DAM BREAKS.

Mahoney City, Pa., Visited by an Unexpected Flood.

It is Rumored, But Not Verified, That a Number of Lives Were Lost.

The Streets Blocked With Huge Trees, Telegraph Poles, Logs, Stumps, Etc.—Houses in Distress—Men and Women—Fears For Miners Under Ground.

MAHONEY CITY, Pa., June 20.—At about 10 o'clock Friday night the waters of the Mahoney River, the alluvium in the case of fire. In a short time the streets were filled with people rushing wildly to find the cause. They were attracted up Main street, and before proceeding for a carriage dashed toward them. The occupant, as driving for his life, was crying: "The dam is broken! Fly for your lives!"

The crowd turned and fled, and in the distance could be heard the rushing of the mighty torrent. "Fly for your lives!" was repeated from mouth to mouth.

By the time the water reached Main and Center streets the crowd had fled to the hills. The people living in the northern end of the town had not time to reach the mountains after the alarm was given and sought shelter in their houses.

In a few minutes the debris had blocked the streets. There were huge trees, telegraph poles, logs, stumps of trees, wagons, carts, etc., of houses, brought down by the current. Cellars and houses were flooded and the streets were made impassable.

After reaching this place the water took a westerly course, and it is reported that the water was not the eastern branch of the Lehigh river between here and Park Hill is blocked; the tracks being washed out, and huge logs and trees are lying across the tracks, piled ten and fifteen feet high.

The telegraph wires on the Lehigh Valley road were down, and it is reported that the Lehigh and New York, a small mining village about two miles from here, and right in the path of the flood, have been carried away.

After the flood had subsided, the greatest fear among the people was for the miners working underground, but information at this writing gives no lives lost.

It is impossible to reach the broken dam, as on all the way through which the raging torrent spent its course the water is known to be.

Bodies are flying in all directions as to the number of lives lost. Two people are reported missing, and how many more can not be estimated now.

The lower business portion of the town was dead, and nearly all had outside of their houses ruined.

The exact cause of the dam bursting can not be ascertained yet. The water running into town had a muddy appearance all day, and it is alleged by some that the dam was burst.

Others say a cloud-burst had hung over the dam all evening, and the heavy body of water could not stand the strain in the breastworks, which gave way with mighty force.

Comics arriving in town report a great deal of damage done and some of the mines are flooded, which means to work at the mines until the water is pumped out.

ANTIS' BIG BOX.

Its Contents Expected to Show What New York Is For.

CHICAGO, June 20.—Two thousand posters are being put up to Cleveland headquarters of the Grand Pacific Saturday morning and deposited their bairn in a corner. It was closely guarded by E. Ellery Anderson one of the leaders of the "Anti-Snappers." Mr. Anderson, who has the big list in charge, said he had been in touch with the Snappers against Hill and the snap convention, and there are 300,000 names signed to them. It is the biggest protest that has ever been presented to any representative body, and many who signed names on those rolls have been citizens of New York. Their will be heard in the convention if possible and at least before the committee on credentials. We will show the convention that the grand majority of the people voted on American cities was voted at the February meeting of the Hill Unionists. We know he is not the choice of the people of New York and that Grover Cleveland is."

UNCHAINED FROM A CORPSE.

Archbishop Ireland On Capitalism in France, The Labor Question.

Paris, June 20.—The Temps Saturday published an interview with Archbishop Ireland of St. Paul, Minn., who has arrived here to succeed the United States after his successful mission to the Vatican, in regard to the Stillwater Faribault education scheme.

The archbishop spoke of the pope's recent encyclical enjoining Catholic capitalists to give government a public spirit of government. According to the Temps, Archbishop Ireland said: "The pope's decision that Catholics must adhere to the republic is irrevocable. The church in France must not remain attached to a corpse. It must be reborn."

In regard to labor disputes, the archbishop said he hoped that all differences between employers and their workmen would eventually be settled through arbitration, instead of individual trials and the action of trade unions. If their efforts were futile, the state should intervene. American workmen, he continued, were thoughtful and responsible. They only demanded what was possible to obtain, and did not wish to foment useless and ridiculous strikes.

The archbishop remarked on the attempts made in France to found Catholic workingmen's societies. He dwelt on the fact that there was no religious distinction in trade associations in the United States.

THE ULSTER PROTEST.

Strong Comments By the British Press.

LONDON, June 20.—The Post says: "The Ulster meeting is no mere repetition of the remonstrance of 1868. It represents a force called into existence by the apathy and indifference of the British electors. Never before made so appeal have been made in the highest principles of national life and British honor. Commenting on the Ulster convention, the News admits that it was a most successful spectacle and parade, and that the speakers were moderate."

The Standard says: "Ulster's voice will ring through the kingdom and will conspicuously refute the sinister prophecies of the adversary. The only place that touched the hearts of the electors is to favor home rule, and we know that it will bring the sword." The Times says: "No political demonstration of our time has afforded any parallel to the Ulster convention. If we mistook not, it was the first time in the history of our country that there is an Ulster question as well as an Irish question, to ignore which would be an act of criminal folly. The delusion that the Ulster resistance is merely an Orange movement has been finally dispelled."

BROKE JAIL.

Sgt. Prierson of Lawrenceburg, Ind., Escaped, But the Sheriff Stops Them.

LAWRENCEBURG, Ind., June 20.—The jail breakers tried to break jail by prying off a lock with a stove poker. Six of them succeeded in getting out, but had trouble in getting out, because they had escaped, but instead of going through the collar door they came upstairs into the kitchen, awakening Sheriff Haines, who hastily confronted them with a pistol, driving them back, and closing the door where he was obliged to keep watch over night. The commissioners are in session and will attend at once to making things secure. The prisoners admit to being told by an outside party that the lock was weakened by the 10:30 train.

In Louisville Emma Schambach, aged 17, is rapidly turning to bone. In other words, her bones and tissues are becoming ossified. The girl's right arm and left leg are perfectly stiff, and she is unable to move them. The muscles of the face and neck are also turning to bone.

FRED ECKSTEIN, JR., who was killed by falling down an elevator in Cincinnati, had just placed an insurance of \$60,000 on his life, a peculiar feature of the fact being that it cost him nothing to do so. He had given his note for the payment of the first premium and the agent had held the note himself, giving his check to the company.

It has become an old saying, and a good one, too, that when a physician is called in to treat a dying child, and is at a loss to know what to treat it, he very rarely goes amiss if he treats it for the earache. Mothers would do well not to let this fact escape them.
